- Horsepower: 100
- Cruise Speed: 100 mph
- VNE: 140 mph
- Stall clean: 42 mph
- Stall full flaps: 32 mph
- Range: 600 miles

The A22-LS boasts a very roomy 50" wide cockpit at the shoulders with nearly all glass doors and a massive windshield that provides legendary visibility. With a speed range from a 32 mph stall to 100 mph cruise, a 600 lb useful load and 30 gallons of fuel, the A22-LS is a very versatile aircraft. The A22-LS is capable of a takeoff roll of around 200' and can land in about the same distance. With full flaps and aggressive slip, the A22-LS can safely approach very slowly and at a very steep angle over obstacles. With tundra tires and mud guards, it is very well suited to off-airport operations. The A22-LS may also be equipped with skis or floats.
